

LEATHER:Arctic White
EMBROIDERY:Arctic White

- The customer has requested personalised embroidery to the FRONT & REAR Seat Insert module (LMB).
- Positioning as per the drawing below with the embroidery centrally aligned to the part.

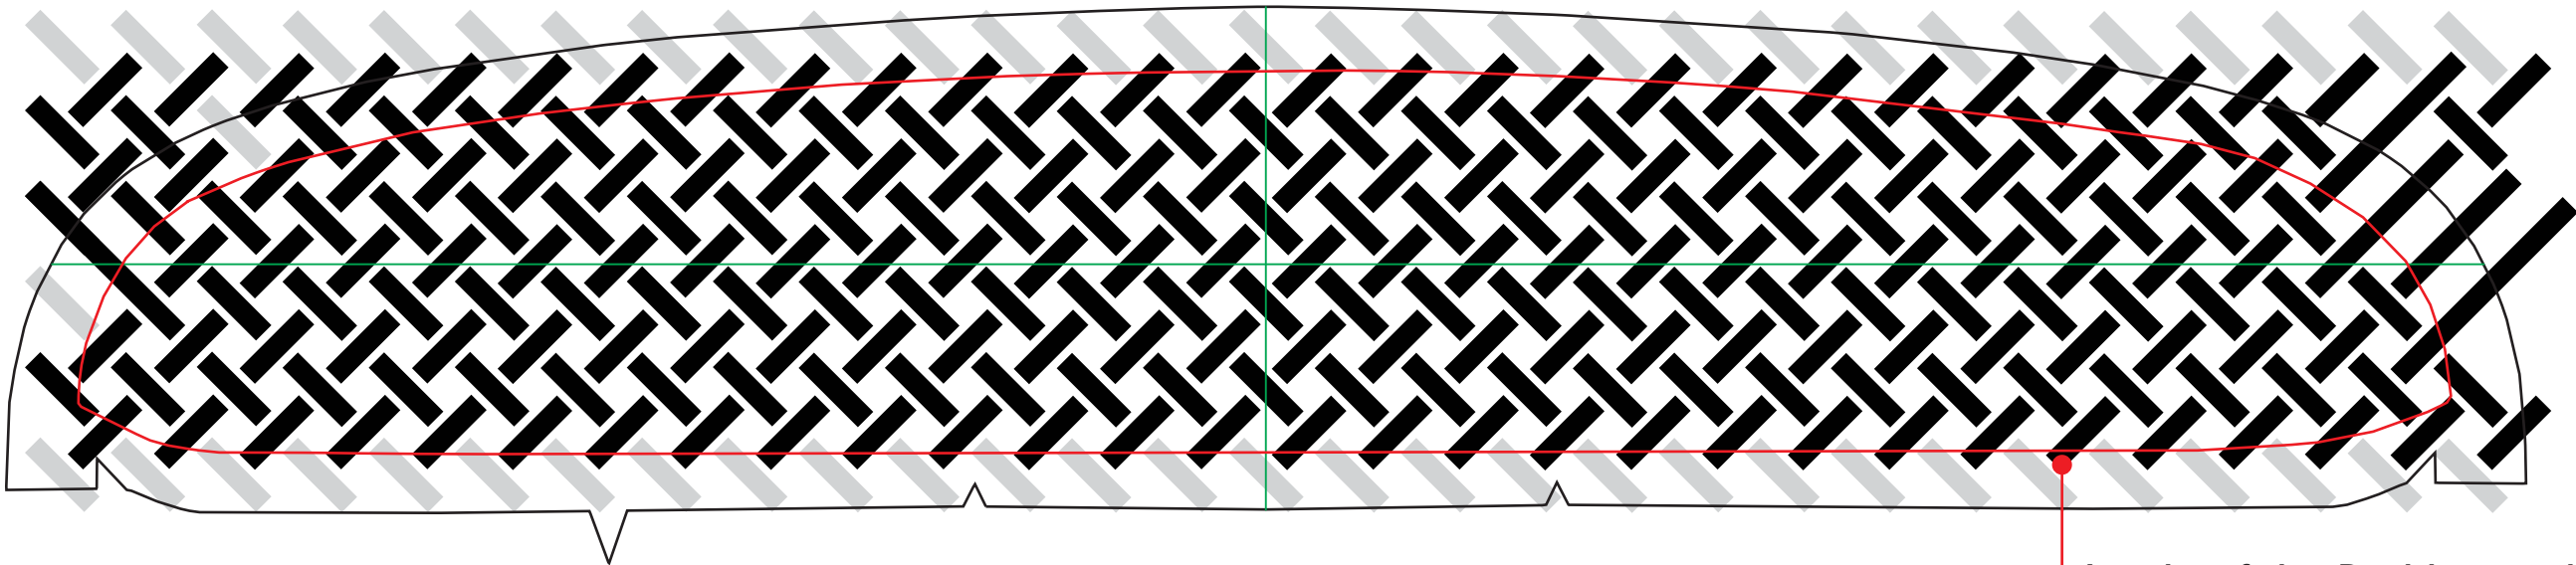

Green shows the connections in the pattern. Small white spacing line is to show where the stitch direction change occurs

Satin Stitch Embroidery

Not Embroidered - For reference only

Same feature as FS20200014, but on an RR21 and in different leather colour. Still tone on tone

Inside of the Red line is the visible area of embroidery

Design image only - refer to actual car specification, material samples and Design CAD data release

Design Feature 20200638
